

Electronic Patient Billing

QuickBill is the inexpensive and simple way to send patient billing statements.

Patient statements can be a hassle, but with QuickBill you can efficiently manage the entire process from your practice management software with just a few clicks of the mouse. Your staff will save countless hours when we do the sorting, stuffing, sealing and stamping. Plus, you'll save money in the process.

We'll Do the Dirty Work

Instead of printing and mailing the statements, click the QuickBill button and we handle the rest. Your statements are in the mail within 24 hours. It's that easy. Plus, you don't lose any of the control over the statement process. You choose which statements are mailed and when they're mailed. QuickBill even gives you the ability to add personalized notes.

Great Features

QuickBill statements are not only cost-effective; they're professional looking. Each statement has a perforated top portion and a remittance envelope. Plus, you control the information that is displayed, such as: accepted credit cards, line-item descriptions and even invoice color. You can even customize the invoice with your contact information and logo.

QuickBill also has an address correction verification feature that ensures your patients receive their statements. Plus, updated addresses are relayed back to you and can be used to update your patient files with a click of a button.

QuickBill Options

QuickBill gives you the option to include pre-written newsletters with your statements.

QuickBill's newsletters cover topics such as oral health, gingivitis, plaque, healthy diets, and healthy lifestyle. The attractive newsletters are a great educational resource for your patients and will help promote healthy teeth and gums. QuickBill's newsletters are customized with your practice name, phone number and address.
