

eCLAIMS

Electronic Insurance Claims and Attachments

eClaims gives you the ability to simplify the insurance claim process so you get paid faster. With a few clicks of the mouse, your insurance claims are created in your practice management software, validated, and electronically sent to your payors. The entire process only takes a few minutes, but reduces your reimbursement time to days instead of weeks.

Faster Claims, Fewer Rejections

eClaims can reduce your number of rejected claims by verifying that all the necessary components are included with your claims. Everything you need to complete a claim, including digital X-rays, perio charts and photographs, can be attached right from within your practice management software. Plus, many claims can be adjudicated in real-time, reducing the reimbursement time even further.

HIPPA-Compliant

eClaims, unlike paper claims, are transmitted in a secure, HIPAA-compliant format. Your patients' information is never in jeopardy of being compromised and you save money on postage.

eClaims

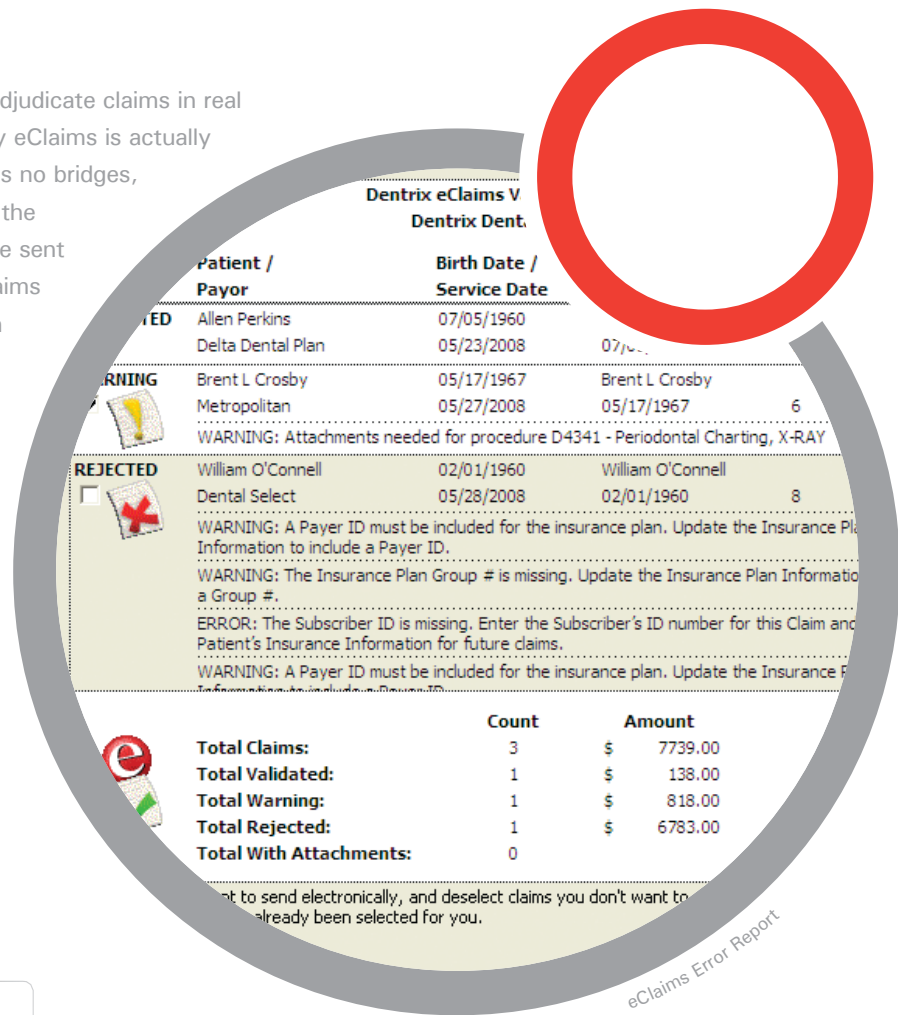

eClaims Versus the Competition

eClaims is the only electronic claims service that can adjudicate claims in real time, for the fastest reimbursement possible. And, only eClaims is actually part of your practice management software; this means no bridges, no third party patches, and no hassles. With a click of the mouse all of your insurance claims and attachments are sent directly to your payors. Plus, if you need help, the eClaims support team is the only source that can help you with everything from claim creation to reimbursement.

More Connectivity

eClaims also has the largest list of payors for electronic claims and attachments in the industry. You can send more claims and attachments using eClaims than with any other service.

The eClaims Difference

- Integrated claim and attachment process
- Bi-directional information exchange
- Industry-leading payor connectivity
- Real-time claim adjudication
- Secure HIPPA-compliant format
- Daily claim status reports
- Free instant software updates
- Toll-free, live customer support
- No annual contracts

“ With DENTRIX and electronic claim submission, claims are paid quickly and we are able to do more dentistry and less paperwork. ”
